## Seesaw Permissions

Seesaw is a student-driven digital portfolio that empowers students to independently document what they are learning at school. Additionally, this app supports students in developing important 21st century skills in communication, collaboration, creative thinking, problem solving, digital literacy and citizenship. Seesaw is a highly regarded educational tool used extensively in Australian schools and across the world. Both students and teachers will be using a device to document learning when using this app.

### **Who can access your child's portfolio?**

Your child's information is stored on their individual digital portfolio that can only be accessed at the school level by teachers of each child and school administrators of Seesaw. When a student's work is approved by a teacher, only parents and carers of the child can view this work. Photos posted of groups of students can be viewed by those who have access to those students' profiles. For example, a photo of 4 students can be viewed by the parents/carers of those 4 students who have access to their child's Seesaw account.

Note: No other parent/student can view another child's folder. All information remains private and is not published for public viewing.

Please fill out the form attached and return it to the school. Please note that the information filled out below will remain on our school system and passed on to the new classroom teacher each year. If you wish to make any changes, please contact the school.

---

## **Seesaw Permissions**

Please indicate which permissions you give by ticking those that apply:

- I give my child permission to be in group photos/videos. I understand that this means other parents/carers in that group will be able to view photos of my child.
- I will not save and share photos/videos that contain photos of other students.
- I will not repost on any media channels any material that contains any other student.
